**Product** : Rev Power Steering Fluid

**Part #** : R460, R461, R462, R463, R565

**Type** : System Management

**Engine** : N/A

**Description** : Conditioner and stabilizer

Mixes perfectly with factory fluids  
(Including Honda and VW I Audi)

## Problem Symptom

Low power steering fluid, or replacement of system fluid

Small leaks or to renew fluids anti foaming properties

## Performance

- Contains special additives to reduce foaming, corrosion, squealing and pump wear
- Revitalizes the pliability of seals to eliminate and prevent recurring leaks

## Application

With engine off, add to power steering fluid reservoir as necessary, to maintain correct fluid level.

## Characteristics

- Reduces foaming, pump squeal and conditions fluid.
- Detergent action additives to keep power systems clean and stabilizer additives to reduce bearing, piston and valve noise and wear.
- Makes steering easier, quieter, smoother, non foaming and non corrosive.

## Packaging

|       |                     |                |
|-------|---------------------|----------------|
| 350ml | 12 bottles per case | 10 Lbs. / Case |
|-------|---------------------|----------------|

|        |                     |                |
|--------|---------------------|----------------|
| 500 ml | 12 bottles per case | 13 Lbs. / Case |
|--------|---------------------|----------------|

|     |                     |                |
|-----|---------------------|----------------|
| 1 L | 12 bottles per case | 35 Lbs. / Case |
|-----|---------------------|----------------|

|        |                    |                |
|--------|--------------------|----------------|
| 3.78 L | 4 bottles per case | 35 Lbs. / Case |
|--------|--------------------|----------------|

|        |      |                |
|--------|------|----------------|
| 18.9 L | Pail | 41 Lbs. / Pail |
|--------|------|----------------|
